Thesis submitted as a requirement for the degree of

Bachelor of Engineering in Computer Engineering

Submitted: 26th May 2015

Supervisor: Dr Hye-young Paik

Student ID: z3415440, z3416477

Topic ID: 3031

Contents

Chapter 1

Introduction

Having a set of clear requirements to their thesis is important to student finalising their BE, or other, degree. Such requirements are both in relation to the physical appearance of the thesis, as well as the writing style and organisation. The present document tries to concisely state the theses requirements while appearing in layout and structure as a thesis itself.

- Discuss what an SNS is

- Talk About Facebook and what is a feed

- Talk about ranking algorithms . . .

Chapter 2 explains the background for this document. Chapter **??** states the style and submission related requirements to theses submitted at the school. Chapter **??** explains content related requirements to theses. Chapter **??** evaluates the thesis requirements template. Finally, Chapter **??** draws up conclusions and suggest ways to further improve the thesis requirements template.

Chapter 2

Background

Every semester, students ask their supervisor how to write their thesis, what the requirements are, and what to write in it. This document tries to answer all such questions.

2.1 Previous work

- Have a sub-section for each research (group into topics of ranking algorithm and user modelling)

- May or may not need subcategories . . .

2.2 Pie is the best food

2.3 Previous work3

This is a sample!!

Previously, Nooshabadi [Noo05] has descried style-related thesis requirements, Shepherd [She05] has provided LaTeX templates while other academics have discussed con-

tents with their students. This work draws all the relevant information regarding thesis writing into one document. The present template/document is heavily influenced by Nooshabadi and Shepherd, incorporating requirements from The Graduate Research School [GRS14] for Higher Degree Research theses.

Chapter 3

Proposal

Every semester, students ask their supervisor how to write their thesis, what the requirements are, and what to write in it. This document tries to answer all such questions.

3.1   How we do this

- Discuss the proposal

- Block diagrams etc . . .

3.2   Cars are fast

3.3   Toilet

Chapter 4

Plan

Every semester, students ask their supervisor how to write their thesis, what the requirements are, and what to write in it. This document tries to answer all such questions.

4.1   Plan

- Do our plan

- Block Diagrams and stuff . . .
